

recycle | refurbish | reuse

Recycle

What CDFHS needs are donated bicycles from you and anyone you know. With these recycled bicycles we can refurbish which then would be able to be reused by you.

Refurbish

We have a dedicated team of bicycle mechanics ready to refurbish donated and scrap bicycles ready for re use by you. All bicycles are thoroughly tested for health & safety.

Reuse

Now this is where you get a quality bicycle for a reasonable donation. For this donation you receive a bicycle that competes with a brand new one for a fraction of the price.
